

## IDP Training Grants

We're striving to offer learning opportunities that model 21st Century skills and we see the obvious need to expand and leverage our resources. Our IDP Training grants give interpreters an opportunity to find their own training (defined by their Individual Development Plan).

IDP Training Grants focus last year was in education and social media. This is a list of approved grants from 2013-2014. This year the grants have been expanded to include high priority areas from the 2014 Interpretation and Education Needs Assessment. Visit the IDP website to find this list of high priority areas.
